IMPORTANT LEGAL NOTICE

To: All Macy's & Bloomingdale's Vendor Direct Partners
Re: Changes to California Proposition 65 Warning Regulations

Dear Valued Business Partner:

As you should be aware, California's Proposition 65 (also known as the Safe Drinking Water and Toxic Enforcement Act of 1986) requires businesses to give a "clear and reasonable warning" to California consumers before exposing those individuals to certain levels of a chemical on the state's list of known carcinogens and reproductive toxins.

The regulations governing "safe harbor" warnings under California Proposition 65 are changing and will impact all products manufactured on and after **August 30, 2018**. The purpose of this letter is to inform you of Macy's/Bloomingdale's expectations and requirements of its Vendor Direct partners for products offered for sale online on the www.macys.com or www.bloomingdales.com website. Your continued fulfillment of orders to California consumers placed through Macy's/Bloomingdale's website will constitute your acknowledgment of these requirements and your agreement to comply with the new regulations.

More information is available at http://oehha.ca.gov/proposition-65/crnr/notice-adoption-article-6-clear-and-reasonable-warnings, and we encourage your compliance managers to review and understand your company's obligations going forward.

Key changes to the safe harbor warning regulations include:

- Product warnings must now either specifically identify at least one chemical in the product for which a warning is being given for each toxicological endpoint (cancer and/or reproductive toxicity) or follow a prescribed short-format.
- The new form of labeling can be found at the following internet link: https://www.p65warnings.ca.gov/sample-warnings-and-translations-businesses
- Warnings must be given online, even if the product itself is labeled with a Prop 65 warning.

What you need to do:

- If you are fulfilling orders offered for sale online at the macys.com/bloomingdales.com website, you must provide us with the warning for each such product (by SKU#), in order that we can ensure that the warning is displayed online to our customers as required by the regulations.

- If you do not provide us with the information for each product, we will not be able to providing the warning online, and you are at risk of an enforcement action.
- Proposition 65 warning information should be provided to us at Prop65Agent@macys.com and AgentProp65@bloomingdales.com, respectively. This information must be provided for each new item that you supply to us at the time the product is set up to be offered online.

If you have any questions regarding this communication, contact us at Prop65Agent@macys.com or AgentProp65@bloomingdales.com, respectively.
